

# ~ Beloved Horse Sponsor ~

*Tino is short for Valentino because this big fella is such a love! Tino came to the Sanctuary in March 2011 underweight and in need of some serious healing. Having received less food than his body needed, he worried himself into an ulcer. His stomach was aching and so was his heart. Nutrition, herbs, attention and time have changed all that. Today, Tino is relaxed, happy and a bit on the chubby side.*

*Tino has some arthritis in one of his front feet but it doesn't stop him from playing with the other horses and enjoying life. We hope he will soon find his forever person, but in the meantime he will continue to get the care and love he needs here at the Sanctuary.*

*This certifies that*

---

*is a beloved sponsor of Montana Horse Sanctuary  
resident, Tino.*
